For inflatable tent, both cover and legs can be sewn or welded.

1. Branding logos can printed directly on the tent, or tied to cover; close and strong stitching, durable zippers supplied. Doors can be detachable with zippers.
2. Suitable for advertising, event or party use. Easy to be moved.
3. Designs, sizes and colours can be changed according to customers' design.

Technique:

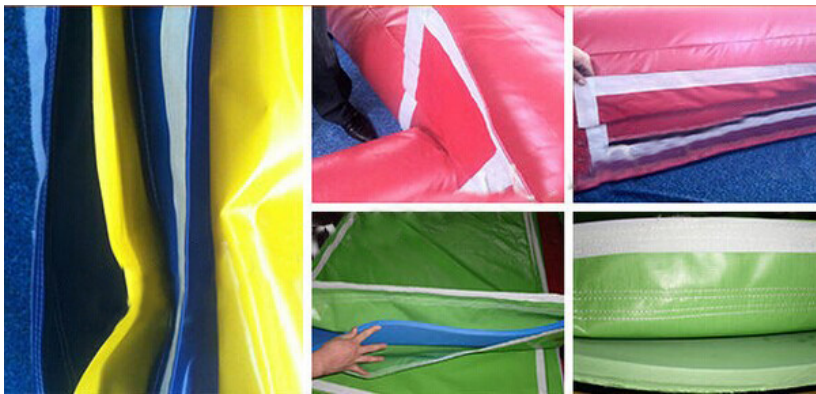

1.Reliable And Durable Materials

High quality materials are essential for producing inflatable products. All of the raw materials we used are originated from the best material supplier in China——PLATO. All of the raw materials we used have passed EN71, EN14960 and ROSE test.

2.Durable Zipper And Safe Air Value Sheet

Each inflatable product is designed with a strong zipper in the bottom for quick deflation and an air flap for force dispersion. For sake of security, inside airbag is designed with safe air value sheet for sudden accidents. For example, if the blower stops working, the air value sheet will slow down air leak and let people have enough time to get out of the product.

3.Professional Packing Service

For years, we dedicate to providing professional packing service for our customers. For each product, we use soft carpets for inner packing, waterproof PVC bags for secondary protection and transparent PE films for outer packing, in order to make sure that products won't get damaged during transportation. Each package is attached with the exact picture of products and order number for easy classification. For extra large products, we use steel pallet, for which the fees are quite reasonable and negotiable.

For any questions, just contact us and we'll be happy to speak to you.
