#### Feature:

##### 1. Reliable And Durable Materials

High quality materials are essential for producing inflatable products. All of the raw materials we used are originated from the best material supplier in China--PLATO. All of the raw materials we used have passed EN71, EN14960 and ROSE test.

##### 2. High Precision Equipment And Workmanship

A. All sewing inflatable products are made by high precision sewing machines imported from Japan and using unique 12 in one waterproof nylon threads. We use double stitching for both inside and outside of the product and quadruple stitching for the force loading bottom. For each corner and connection, there are reinforce straps to make sure the product are safe enough for all kinds of jumping and playing. The length of each single sewing needle is 3mm-8mm.

##### 3. Durable Zipper And Safe Air Value Sheet

Each inflatable product is designed with a strong zipper in the bottom for quick deflation and an air flap for force dispersion. For sake of security, inside airbag is designed with safe air value sheet for sudden accidents. For example, if the blower stops working, the air value sheet will slow down air leak and let people have enough time to get out of the product

#### Why Choose Barry Industrial

Barry has been concentrated in inflatable toys for many years and is able to custom make any inflatable products according to customers' requirements, such as inflatable bouncers, castles, slides, combos and more. Our water slides (the longest slide in Dubai is made by us), water parks (more than 2000 successful cases both home and abroad), inflatable tents (inflatable/airtight/EXTRA giant) and inflatable toys (land/pool/lake/ocean) have earned ourselves a good reputation for the excellent quality, fast production, prompt delivery and price!
