Someone called it "body ball" "body bounce" is a new type of sealed Ball Game after Water Walking Ball and Zorb Ball. It is made of transparent PVC or TPU with two handles and two adjustable belts inside to secure the players.

Feature:

This amusement ball is like wearing SUMO SUIT but more interesting and suitable for more places: like on grass, beach, also in inflatable pool etc. Players can bump each other, kick the football together, roll from ramps, or small mountains, turn over ...this ball can be used for rent, re-sell.

Safety concern:

some one worry the player goes in upside down, and fall off from the ball. In fact, the space of inside is narrow-same size of person, and the position of handle and belt decides that there is some distance from the top of head to the top opening of the ball. So it is safe. However, helmet wearers will be safer!

OEM/ODM is available! You can send your logo to us, we will help you to put it in the inflatable bumper ball.
