- .Advanced equipment & production line sufficient supply
- .Win-win business partner pursuit to build longterm relationship
- .Professional service team 24 years online solve problems in time
- .2-3 years quality guarantee commercial grade excellent quality.

Safety Material:

0.55mm-0.9mm PVC Tarpaulin

All of our inflatables are constructed from materials that are lead-safe, meaning levels below 90ppm. This is well below even the strict CPSIA and California Prop #65 compliance limits of 300ppm, meaning our inflatables are safe for children. We also use vinyl materials that are flame-retardant and meet the new California NFPA 701, large and small-scale tests. Do your homework before dealing with any inflatable manufacturer, and make sure they're not using cheaper materials that could be dangerous to children. We never cut corners with our products, and always strive to provide the safest environment possible, even if it costs a little more.

Free Custom Design/Custom OEM/ODM

More than 20 years' manufacturing experience of inflatable products. Offer OEM/ODM service for many leading brands around the world.

Quality Assured Durable & Lasting

Barry Inflatable
Since 1997

High Quality Commercial Grade PVC Vinyl (1400*1400 Denier Vinyl) as Materials
Stronger Baffles Offer Maximum Strengths, Secure Excellent Legendary Durability
Multiple Rows Stitching Reinforced Seams to Bear Higher Stress against Ripping
HD image Color, Silk Printing at 1400DPI, UV & Rain Resistant, Not Easy to Fade

Stronger Baffles Key to the legendary durability

Baffles provide the internal structure of an inflatable. Have you ever seen a bounce house with a mattress that has ballooned out? Blown baffles are likely to blame. That is why we only use baffles that are secured by Commercial Grade Vinyl at 1400*1400 denier that provides maximum strength and durability. This material is also perfect for inflatables used in an indoor environment (as they often receive much more use and abuse) and is key to the legendary durability of our products.

Reinforced Seams Against Ripping or Air Leak

We always use at least two rows of stitching on all of seams. But some seams just need a little extra, especially on high-stress areas like a bounce house's mattress. Think of those kids jumping up and down, up and down, up and you get the picture. That's why we insist on reinforcing each and every one of those critical mattress seams by using a seam reinforcement strip that bridges the seam, thus eliminating the stress.

HD Printing

Rich Vivid Color, Various Funny themes

- ✓ High Definition (HD)
upto 1400 DPI
- ✓ Silk Print
Digital Art Work
- ✓ Rich Color Design
Vivid Images
Funny Themes
- ✓ Durable Vinyl Coated Nylon
Resistant UV, Aging or Scratching
Color is Durable&Long-Lasting

Industry leading digital art work, printed by the best digital printers on the market, We use a fantastic lacquer process to protect the artwork which is perfect for protecting against the varying weather. We bring in professional HD printer for product printing and the printing result can reach 1400 DPI. The durable vinyl coated nylon is resistant to UV, aging and scratching, which ensures a long-lasting company and brand profile.

Safety for Kids

Barry Inflatable
Since 1997

Safety Material: Commercial Grade Vinyl, Lead-Safe, Fire-Retardant

Safety Design: Safety Net, Safety Ramp, Safety Climb Angle, Safety Pool Depth

We Make Safety Our #1 Priority, You Know it

Safety Design

We only use Finger-Safe netting on our bounce houses and combos. While still transparent enough to allow for easy viewing, the holes of this special netting are too small for even the smallest child's fingers to penetrate. The majority of bounce houses on the market, on the other hand, use cheaper standard netting. This means a child can easily fit their fingers through, potentially causing both damage to the netting and harm to the child's fragile fingers. We never cut corners with our products, and always strive to provide the safest environment possible, even if it costs a little more.

Project Design

For Large Projects, we offer totally free service in Site Planning and Projects Design. you can just tell us what's your project plan, and we help custom design every detail parts, Including projects of Floating water park, Inflatable amusement theme parks, Slide the city, Obstacle course, Combos bouncers with slides ,etc.
