Product Description

Large Inflatable Floating Water Park Obstacle Course For Sea With CE Certification

Advantages of our inflatable aqua park:

1. We add reinforcement strips for all our products, so the items have good airtightness and more durable.
2. We install high quality air relief valve made in on our water parks, so the items can release air to a safety level automatically when it's getting hot in the noon.
3. For parts like anchor rings and handles, we use the big high frequency welding machine to weld on the products instead of glue on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off.
4. Stable Connection System. Bouncia created originally eyelet connection system and anchor ring connection system which make the whole park very stable.

How to order our high quality inflatable water park?

1. Choose your favorite items on our website and send us the items ID NO..
You can also give us pictures of the items you want.
2. After everything is confirmed, we will send you proforma invoice (PI).
