### Outdoor giant amazing water park equipment , backyard water park inflatable for kids

#### Descriptions of giant inflatable water park

This floating water park is for different purposes like fun, safety, operation and technical construction to make our Sports Parks a great experience for end users and an easily controllable entity for operators.

Participants can climb on, sit on, across and walk on the different parts of it like inflatable iceberg, trampoline, slides, totters, and so on. We use 0.9mm commercial grade reinforced PVC tarpaulin (UV resistant & flame resistance) to make all the water games with hot-air machine. And we will make the size and colors according to your requirements.

Trade Term:	C&F, CIF, EXW, FOB

#### Our Advantages of giant inflatable water park

1. We add reinforcement strips for all our products, so the items have good airtightness and more durable.
2. We install high quality air relief valve made in on our water parks, so the items can release air to a safety level automatically when it's getting hot in the noon.
3. For parts like anchor rings and handles, we use the big high frequency welding machine to weld on the products instead of glue on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off.
4. Our newly developed eyelet connection system makes the whole water park no gaps and very stable.
